‘WAMM for global collaboration towards excellence, advancement and safety in airway management’

Dear Sir/Madam

In 2015, we are organizing the largest globally inclusive airway management meeting in Dublin, Ireland. This unique event is the 1st World Airway Management Meeting (WAMM) taking place in Dublin between 12 and 14 November 2015. WAMM celebrates the anniversaries of two world leading national airway societies, namely Difficult Airway Society (DAS) and Society for Airway Management (SAM). The mission statement for the meeting is ‘WAMM for global collaboration towards excellence, advancement and safety in airway management’.

The WAMM organising committee would like to offer your society an outstanding opportunity to contribute to this global collaborative meeting. The organising committee have agreed to commission an international airway society village, which will include airway management societies from around the globe to come and exhibit for free. The exhibit space consists of a table and 2 chairs in the airway society village area. Any representatives from any affiliate society that plan to attend the WAMM meeting and man their stand will need to pay registration for the conference. Please note that this would be a perfect opportunity to present your society to an international pool of delegates specializing in airway management. This is a great advertising opportunity for any participating society. Paid, registered attendees will be able to attend world-class lectures on various issues in advanced airway management, presented by leading speakers from around the globe. This is a unique opportunity and we hope you accept our invitation. Spaces are available on a first come first serve basis.

All Societies accepting the offer to attend the societies village will automatically be placed on the WAMM website with their logo, website and a description of their society. Additionally, acknowledgement as an educational affiliate of the meeting will occur. If you are unable to attend WAMM 2015 but are interested in educational affiliate status, we would still like to promote your society and acknowledge you on our website.

WAMM would be grateful for any advertising of this global meeting through your society. Be this either through online advertising, email to your members or paper based advertisements.
The meeting has a wide range of educational material and key networking opportunities. Some important features of the programme include:

- **Scientific programme** – A wide range of current and topical speakers from around the globe, presenting on state of the art and cutting edge topics in advanced airway management
- **Hands on workshops**
- **Industry exhibition**
- **Poster competition** – Present your research in an international arena to colleagues and leading academics in airway management
- **Keynote speakers** – Key international figures within airway management will be enhancing the three day programme.
- **Social events**

We hope you will be able to consider our invitation to join our WAMM airway society village and become an educational affiliate of the meeting. We would also be greatly appreciative of any advertising opportunities that help promote WAMM 2015 to your members and those in your region.

Further information about WAMM 2015 may be found through our website [www.WAMM2015.com](http://www.WAMM2015.com)
